Services

A series of services have been established and structured to be offered to our valuable clients based on private orientation and comprehensiveness of performance. Our services have been adopted based on the following principles and standards.

- Provide consulting and technical, security and management of economic institutions within the Hashemite Kingdom of Jordan and the Arab world.*
- Boost economic development and knowledge in the Arab World through professional experts in the areas of economic and administration.*
- Improve the performance of the individual and the organization and consequently, improve administrative efficiency and productivity.*
- Develop knowledge, skills and individual abilities and attitudes in different areas.*
- Change the behavior of individuals to reach conduct that leads to the desired performance.*
- Achieving a positive relationship between the organization and its members, leading to the achievement of the objectives of individuals and the achievement of the organization at the same time.*
- Manpower planning and development as an important resource for the organization and the community and this leads to the achievement of economic and social development and sustainability.*

1.1 Economic feasibility studies

Our team is able to perform economic feasibility studies for new, existing, and future projects including all detailed items, which are based on scientific hypotheses that coincide with the nature and goals of establishing the project in addition to the geographical location of the project.

1.2 Structuring and restructuring operations

Our team prepares the managerial, financial and technical structure necessary for new projects, and we provide the necessary competencies for conducting restructuring studies for existing projects, which suit the expected size of the enterprise and its targeted workload.

1.3 Performing accounting business

We have the potential to perform accounting business for small, medium and large projects. We also are able to record, follow up on all financial operations, and record them through our specialized and independent accounting program (in both Arabic and/or English). The owners of these projects will be provided with a review scale at the end of each month, periodical calculations and reports in addition to closing annual calculations including income lists, cash flows and changes on proprietary rights, in addition to the financial center's list, which appears as a result of the project's business.

1.4 Internal Audit operations

Our team includes specialized individuals who prepare internal control systems and implement periodical and sudden internal audits (on behalf of the client) for these projects. Your related departments will also be provided with monthly reports – or when necessary – which include their comments and opinions.

1.5 External Audit

Our aim is based on providing you with comprehensive financial services, as we have contracted with a group of accredited account auditing law firms who have been approved by the Jordanian Legal Accounting Association. In order to facilitate the job of our clients who delegate us to accredit one of these firms on their behalf to audit and confirm final calculations related to their institutions at the end of the financial cycle, and the minimum fees, which suit the aims of all parties.

1.6 Taxation Practice

We have provided our clients with a group of distinguished and qualified consultants in the field of filling out clearances and performing financial settlements with the Income & Sales Tax Department. Public Tax on Sales which coincides with accomplishing justice in estimations and injustice in pricing which achieves security and content for our clients, and without causing delay fees or any other fees which they may have to pay.

1.7 International Public / Capitalized Offerings

Our team has the scientific and field expertise to supervise the work of the IPO managers who are appointed by our clients, and follow up on new IPO operations of participating companies. Capitalized IPO operations specialized in increasing capitals of existing companies through private banking accounts in these companies that insure the security of cash flows from the initiation of the IPO until the end of it. The

precision of the information related to IPO information. We provide you with all necessary expertise to manage and invest these cash flows which achieves increased revenues for these companies.

Specialized training courses and workshops

For the purpose of rehabilitating and increasing your employees' skills, we have established a specialized department in order to organize financial, managerial and technical courses in sufficient training halls in a number of Amman's hotels. We have also contracted with a number of qualified lecturers (PhD & Master's Degrees) in addition to a number of experienced lecturers who have practical experience in conducting workshops to deliver the information to individuals in a simultaneous practical and scientific manner.

Designing, building websites, advertising and marketing

We provide you with several specialized companies with many years of experience in this field, that are able to fulfill your needs and achieve your ambitions in reaching the largest number of clients using the most modern technical and technological methods, and comprehensive groups of qualified people who are able to visit your work site to identify your needs and realistically fulfill them using the most modernized methods, shortest ways and best terms and prices.
